

HOTEL INTERNET SERVICES RELEASES THE NEXT GENERATION OF BEYOND TV™ - AN AFFORDABLE, INTERACTIVE IPTV VOD ENTERTAINMENT SYSTEM THAT WILL ENHANCE THE GUESTROOM EXPERIENCE.

Now guests can surf the web, watch the latest HD movies, check email and stay in touch with friends, family and business contacts better than ever!

Simi Valley, CA – Feb, 2012 – Hotel Internet Services releases the next generation version of Beyond TV™ - an affordable, cloud-based Interactive IPTV VOD Entertainment system.

Beyond TV™ is a state-of-the-art, Interactive IPTV system, delivering a crystal-clear HD TV and Video-on-Demand Movie watching experience guests will love.

The Beyond TV™ System provides a large selection of the latest Hollywood Blockbuster HD movies, including bundled movie packages with hundreds of movies to choose from - for one low price. The system allows users to browse the web and use popular sites like Facebook, Twitter, and Linked-in to stay connected to family, friends and work.

International travelers will have the ability to switch languages on-the-fly, making the system more user-friendly and easier to navigate. Additionally, Beyond TV's™ interactive electronic programming guide means guests will be able to quickly find the programming that is of most interest to them!

Another very important aspect of this new IPTV system is that it is compatible with any standard definition or HD TV. Pro:Idiom TVs are not required! Beyond TV's™ infrastructure requirements are very flexible and will work with Coax, Cat5/6e, VDSL and Wi-Fi networks.

Lastly, Hotel staff will have the ability to edit their own content, enjoy revenues from the integrated advertising feature, and provide their

guests with other features such as Express Checkout, Weather, Ordering Meals, Shopping, Alarm Clock, Promotional Advertising Channels, E-concierge Services, Guest Surveys, Guest Messaging, and much more.”
